

AI FACTORY

MONTHLY FORMAT FOR ART HACKATON AND EDUCATION

AI ART HACKATON

With Focus on Midjourney, the local hackaton will give access to all 200 guests to one of the most controversial AI tools available in the market.

AI WORKSHOPS

- 1) AI in Fashion design with Red Eye Magazine
 - 2) AI in Architecture design with eFM
 - 3) AI in Programming with Gerard Sans
-

AI ART HACKATON

1ST EDITION

Sewer Nation discord server will be accessible to all guests with the Midjourney bot included, allowing free use of the tool. The event will be guided initially with a presentation of the ethical implications of this technology and assistance for first time users.

Present in remote connection will be Robness; renowned CryptoArtist, active in the use of AI, who will share his opinion on the tool as well as act as live curator of the event. Art will be created and curated live.

AI WORKSHOPS

1ST EDITION

In our mission of generating education of AI topics, we invited case studies of professionals utilizing these tools, to have them share their experience and give us practical hands on experiences with these tools.

Our academy team is using this opportunity to break down these informations to generate a proposition for a more structured and certifiable academic experience on these themes.
